Enter values from paper W-2 box 14

Note: Each line contains a Type code (first box), and an Amount (second box). [Ignore the third box]

Note: The special codes recognized by TWO are pre-filled in the first three Type boxes from the Template:

NJSDI – Disability insurance

NJSUI – Unemployment insurance / Workforce development partnership fund / Supplemental workforce fund

NJFLI – Family leave insurance

Note: The codes used on your paper W-2 may be different (e.g. SWF for Supplemental workforce fund) – you must use the above 3 codes for amounts that belong to one of those categories. Don't hesitate to ask for help if you're not sure whether an amount should be treated as one of the above special categories.

Note: There may be other categories (e.g. 414H) which show up on your paper W-2 – they should be included in your worksheet box 14 entries, but TWO will not do anything special with the corresponding amounts

Note: Amounts in the NJSUI category are sometimes broken down into more than one amount – it is ok to add the amounts on one line or use the same special code on multiple lines

Note: Some employers do not use the NJ programs – they have private plans for disability or unemployment (you will see a private plan number (PP#) if this is the case). These amounts are not treated the same way for tax calculations and should not use the special codes recognized by TWO

Note: These amounts are sometimes shown on the paper W-2 at the bottom of the form or in boxes 18-20 instead of in box 14

Note: If there is not corresponding amount on the paper W-2 you may need to manually "Toggle Estimated" (make un-red) the Amount box – use Ctrl-Space

Boxes 15, 16, and 17

Note: The state code (NJ) is filled in on the worksheet by the Template

Note: Make sure that your paper W-2 is showing NJ in box 15; if any state other than NJ, then it is either Out of Scope or requires special training.

Note: The State ID number should be filled in exactly as given on the paper W-2

Note: By default, box 16 is calculated from box 1

If the calculated amount agrees with the paper W-2 then proceed;

If the calculated amount is not the same as the paper W-2 box 16 amount, then go back up and check the box next to "Check to take calculations off of line 16, State wages" and you will then be able to enter the correct amount from the paper W-2 box 16

Note: Don't forget to enter any amount from the paper W-2 box 17 (State tax) into the worksheet
